

# Accurate ELECTRIC

## Company Profile

Accurate Electric is a privately controlled Provincial Corporation established in 1993. Based in Timmins, Ontario, 700 km North of Toronto, Accurate Electric's location is central to the lumber and mining activities within the province of Ontario. Accurate Electric is structured in four divisions; industrial, commercial, custom cabinetry and rentals. Accurate Electric has grown from a three person group at inception to a team of over twenty dedicated electricians and support staff. In addition to our core team, we have peripheral employees, which brings our workforce to over thirty members. We enjoy the challenges of the construction and industrial workplace while our reward is a job well done and a happy, loyal customer.

## Corporate Philosophy

Accurate Electric is a customer driven organization. Our services are tailored to specific client needs to ensure that expectations are met with each project. We don't cut corners, our work is performed to the highest of industry standards. Accurate Electric has never missed a deadline, our project management team is always focused on getting the job done right the first time, every time.

In addition to our policy of customer focus, Accurate Electric maintains a committed and dedicated workforce through our Quality of Work Life program. Competitive wages Group RRSP, Group Life Insurance, Long Term Disability Plan and Health Care Plan, leisure programs, employment training and development and our in house health and safety program all combine to provide employees with a positively charged work environment.

Accurate Electric contributes to local and national initiatives on a continual basis as part of our commitment to good corporate citizenship. Accurate Electric contributes to Ducks Unlimited Canada, the Canadian Cancer Society, District Hospital programs, local service clubs, the Police Services Foundation, and the Frog's Breath Foundation. We also sponsor a Novice House League Hockey Team.

Accurate Electric maintains a core team of 20 electricians and fourth year apprentices. We have a dedicated team of electrical technicians and technologists, electrical engineering technicians and instrumentation technicians leading and managing projects for our clients.

**Mark Shewen, General Manager**, oversees the day-to-day operations of the industrial, commercial and manufacturing divisions. Mark has 16 years experience in electrical construction and industrial electrical and provides clients with feedback on project progress and while ensuring that client expectations are being satisfied throughout each project. Mark oversees field crews and is responsible for resource management to ensure that each project has the required personnel and equipment required to get the job done. Mark also liaises with Provincial and Federal Regulatory bodies to ensure industry requirements are always met or exceeded.

**Dan Vlasschaert, Commercial and Residential Projects Manager**, has been with Accurate Electric since 1994. Dan has 16 years experience in the electrical field and manages our 300 commercial Accurate Electric clients while servicing residential customers and enhancing the commercial customer base.

**Guy Gagné, Industrial Project Leader** with over 20 years experience, has been with Accurate Electric since 1994. Guy is responsible for maintaining communication throughout each project's life cycle, managing procurement activities, supervising electrical crews and subcontractor's and for ensuring changes in project scope or specification are considered as each project unfolds. Guy has managed over 35 projects and services three corporate clients at seven sites.

**Marc Beauchamp, Industrial Project Leader** with 15 years experience, has been with Accurate Electric 1998. Marc has managed over 30 projects and services 3 corporate clients at six sites.

**April Chamberlain, Office Manager** assists with the management of each project as controller and Resource planning assistant to the General Manager. April manages over 260 customer accounts and 270 vendor accounts.

## Operations

Accurate Electric's industrial clients include operations in lumber, pulp and paper, OSB, base metals, gold mines, mineral mines, and mine exploration. Commercially, Accurate Electric services concrete plants, municipal waste and water treatment facilities and commercial infrastructure developers.

Our head office is equipped with a 3,000 square foot shop complete with on site welding facility and a custom electric cabinet shop. Our electrical cabinetry division comes complete with a lamacoid shop for building new cabinets and service existing ones in the field. Our operations are insured beyond industry requirements while our infrastructure is second to none.

Our physical resources include forklifts, crane trucks, boom trucks, backhoe and loader, site trailers and fully stocked job boxes, and all of the tools and equipment required for effective project execution.

In addition to our physical resources, Accurate Electric is currently implementing an ISO 9001:2000 Quality Management System to ensure that all business processes remain adequate, suitable and effective in meeting customer requirements. This quality management system also provides Accurate Electric with the tools to continually improve operations and subsequently, ensure customer satisfaction. Accurate Electric has an established Occupational Health and Safety Management System to assure clients, employees and management that Accurate Electric is committed to responsible operations.

## Careers
